NOVEMBER ASSIGNMENT

CLASS – IV

SUBJECT – SOCIAL SCIENCE

General Instructions:

- ❖ Attempt any one activity.
- ❖ Write your name, class/sec on the activity done.
- ❖ Neat work will be appreciated

As India is a big country, it has a wide range of landforms like mountains, plateaus and plains. These affect the climate in various parts of the country.

The life-style (food habits, clothes one wears, etc) depends on the place one lives in.

### ACTIVITY-1

Anvi noted the temperatures of five cities on the T.V. She was surprised when she found that the temperatures of different states varied during the same time of the year. Look at the table below and answer the questions.

#### DECEMBER

	CITY	TEMPERATURE
1	Leh	-1*
2	Chennai	38.2*
3	Delhi	3.3*
4	Mumbai	26.1*
5	Jodhpur	4.6*

1. Which city is the coldest and why? \_\_\_\_\_
2. Which city is the hottest? \_\_\_\_\_
3. Which city has moderate climate? Why? \_\_\_\_\_
4. Which is the second coldest city in the table? \_\_\_\_\_

### ACTIVITY-2 [Make your own rain gauge](#)

You can make your own rainfall measuring instrument (called a rain gauge) using a plastic bottle as shown in the figure. Complete this activity using the link given below.

(<https://youtu.be/9aeEPir0hu4>)
