December Assignment (2021-22)

Class-V

Science

Chapter-11 Rocks and Minerals.

Minerals are natural resources present on the earth in a limited quantity. Besides, they take millions of years to be formed again. If we consume all the minerals in our life time, what would the next generation use? Is it not our duty to conserve natural resources for coming generations?

Let's conserve our Natural Resources!

Activity

- ❖ List the minerals found in India and mark the places on the political map of India.
- ❖ Create a colourful poster on conservation of minerals to spread awareness among people.

Or

Rock art is one of the oldest material forms of human expression and is found throughout the world. Ancient people created many different kinds of images. It usually shows animals, tools and human activities. Studying rock art helps people today understand what life was like for the people who made the art centuries ago.

Let's create Stone Art!!

Activity:

Collect some pieces of rocks or stones around you. Create beautiful home decor items by writing inspirational quotes, words of encouragement and paintings on them.
